Academic Year : 2024 / 2025

Summary

This user guide is designed to help all users of the **Rafiq Al-Tariq** mobile application navigate its full range of features with ease. Whether you're a learner preparing for traffic exams, a driver in need of roadside assistance, or someone simply looking to stay informed about road safety, this app is tailored to support you.

The guide is organized by user role:

- **General Users** can register, take traffic lessons, simulate tests, receive GPS-based alerts, and request help from within the app.
- **Employees**, such as mechanics and towing services, can efficiently manage service requests via a real-time dashboard.
- **Admins** are equipped with tools to moderate reports, ensure app compliance, and manage platform content.

This structure ensures that each user finds relevant information quickly, promoting safety, learning, and efficient service delivery.

Conclusion 14

Introduction

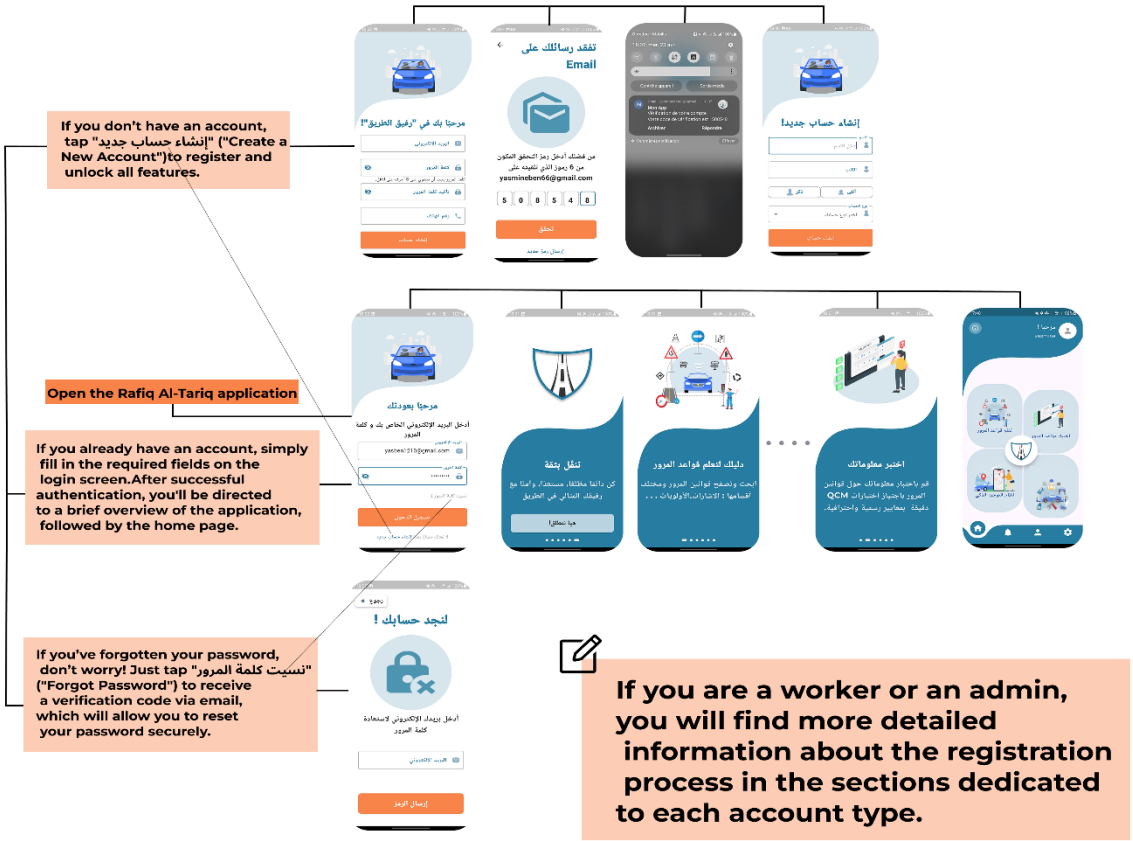
This section provides a simplified guide for general users to navigate and utilize the features of the Rafiq Al-Tariq application efficiently.
The app is designed to be user-friendly and accessible to all individuals, regardless of their technical background.

Part 1: For General Users

1. Account Registration and Login

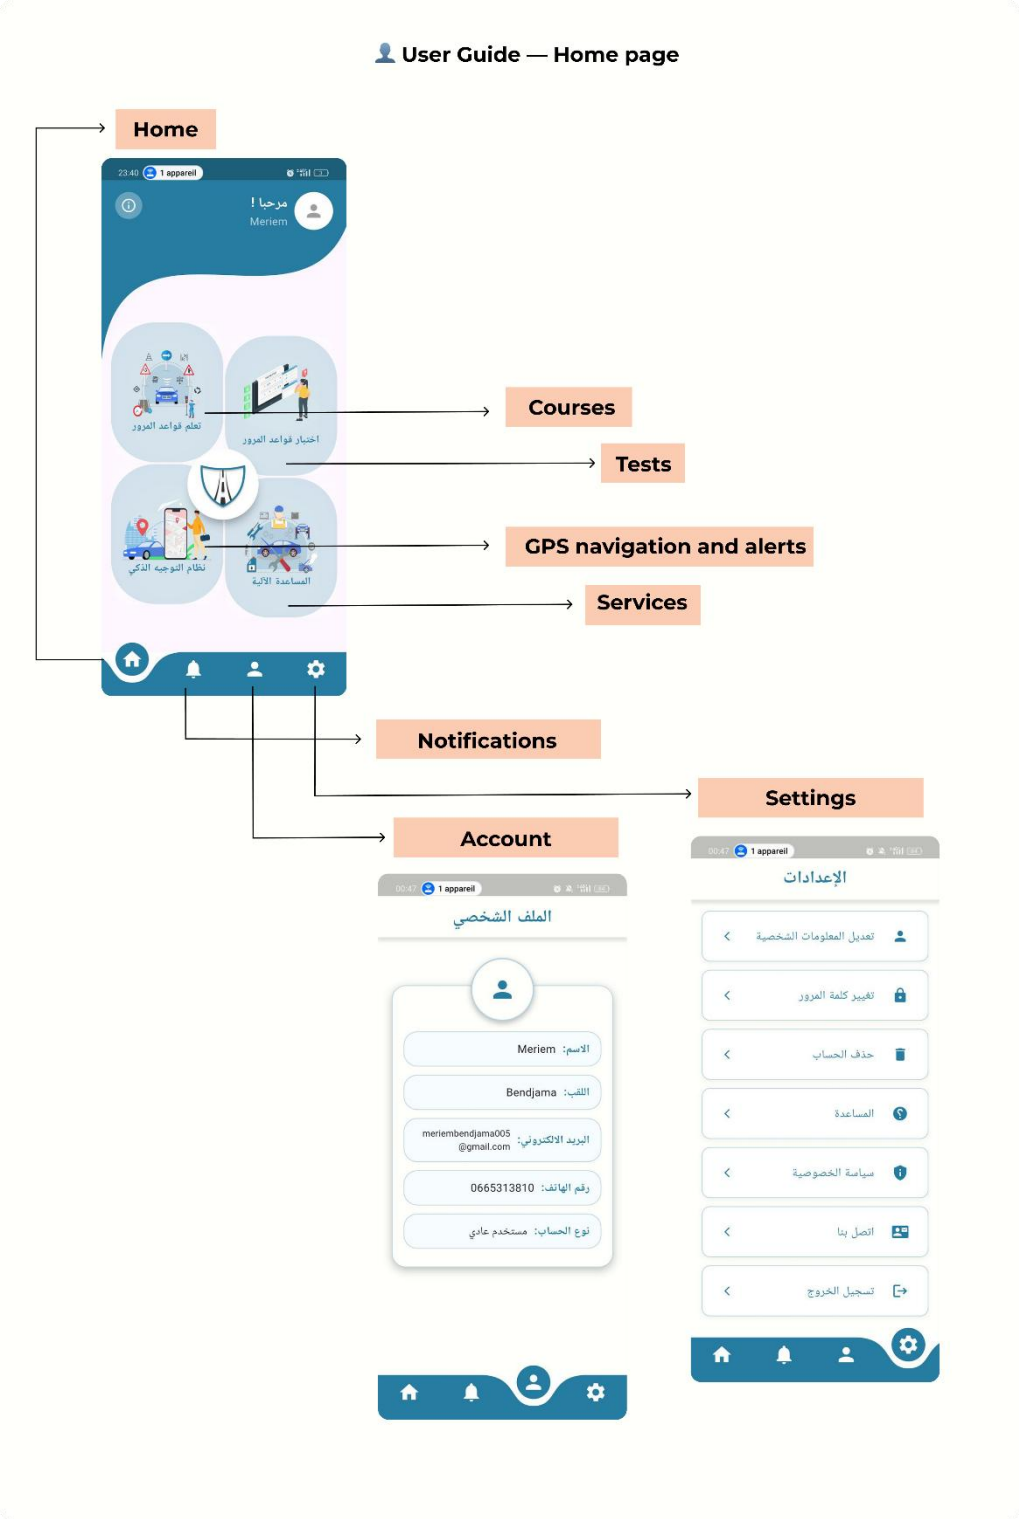
Users begin by registering with a valid email and a secure password.
After logging in, they can access all the main functionalities of the app.

👤 User Guide — Sign Up / Sign In / forget Password



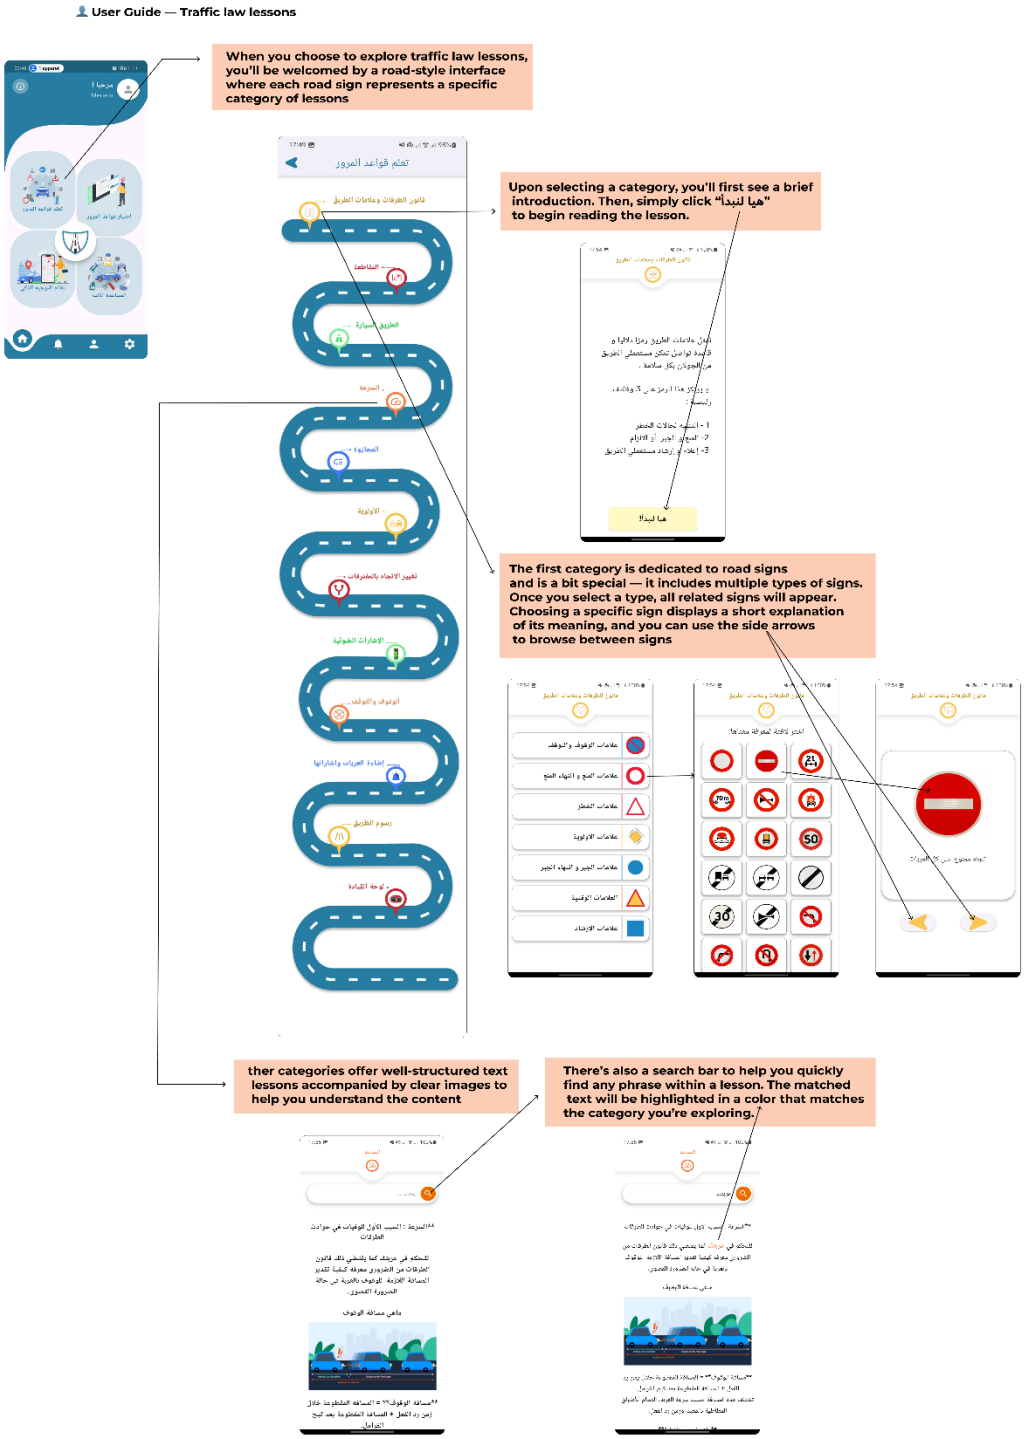
2. Home Page Overview

The home page is your starting point. It’s designed to give you quick access to everything you need.
Your central hub! Access lessons, take tests, request help, and receive alerts — all in one simple interface.



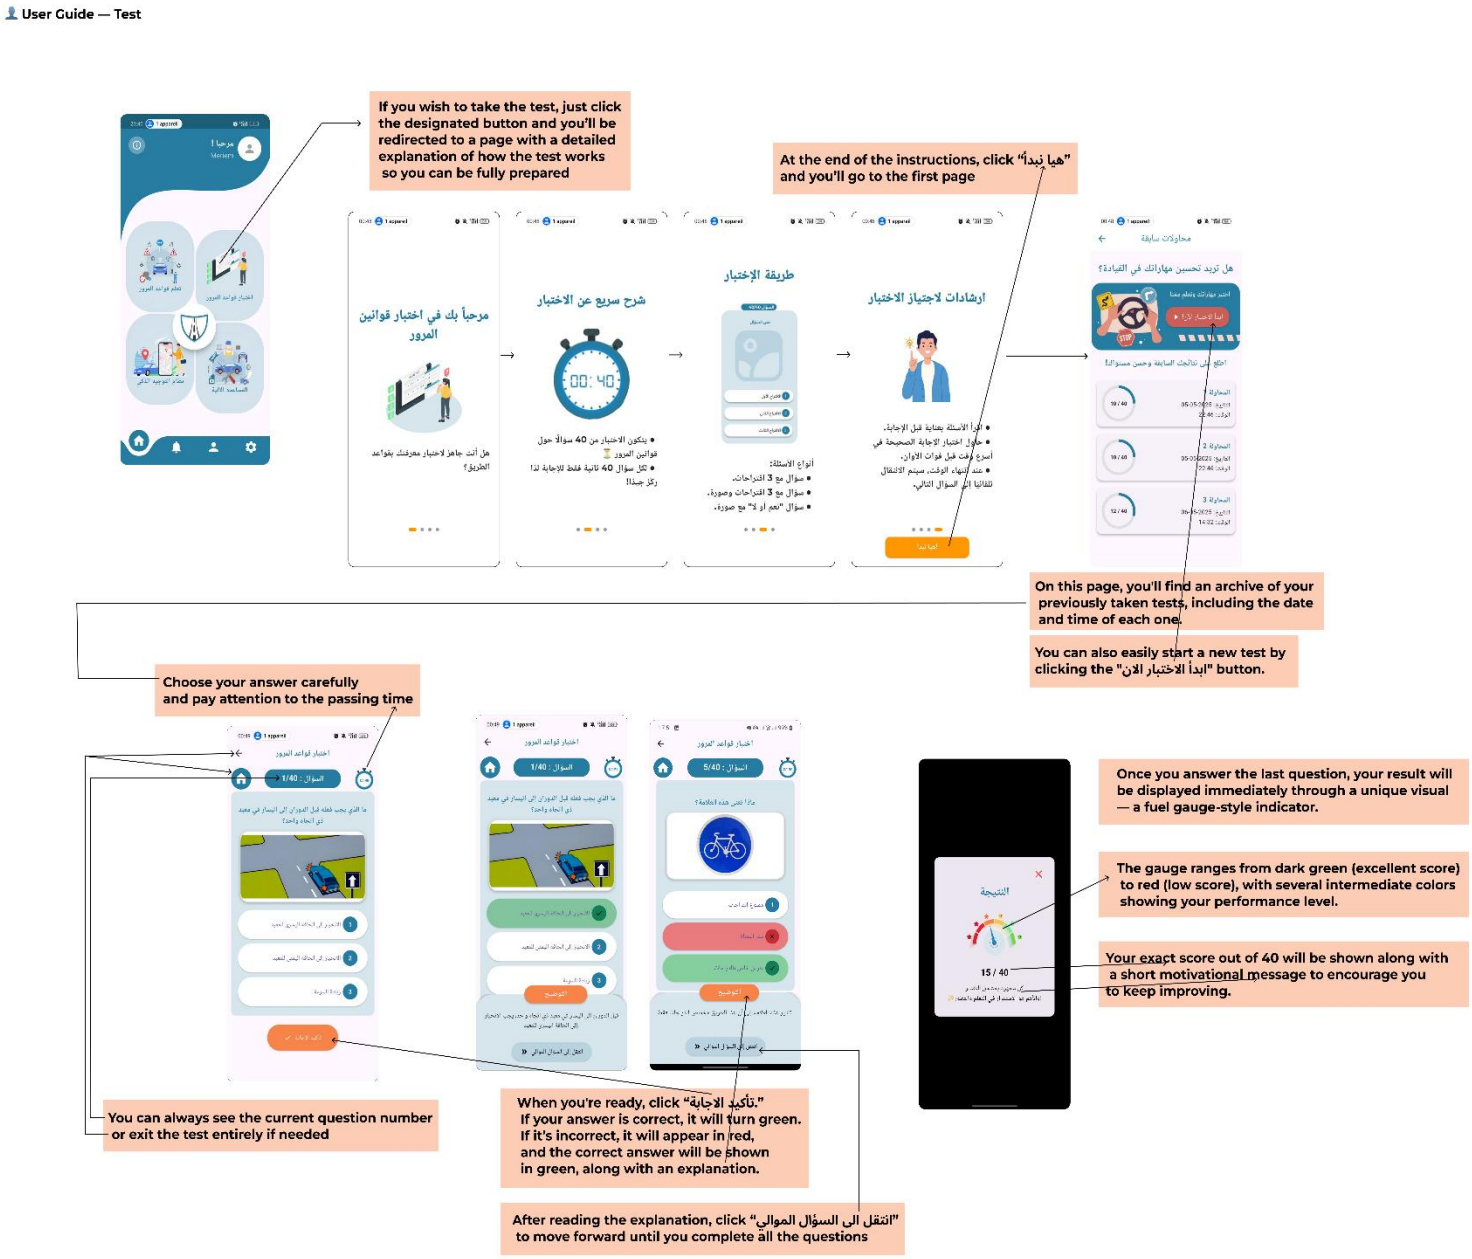
3. Accessing Traffic Education Lessons

Start your learning journey with clear, image-supported lessons that make traffic rules easy to understand.



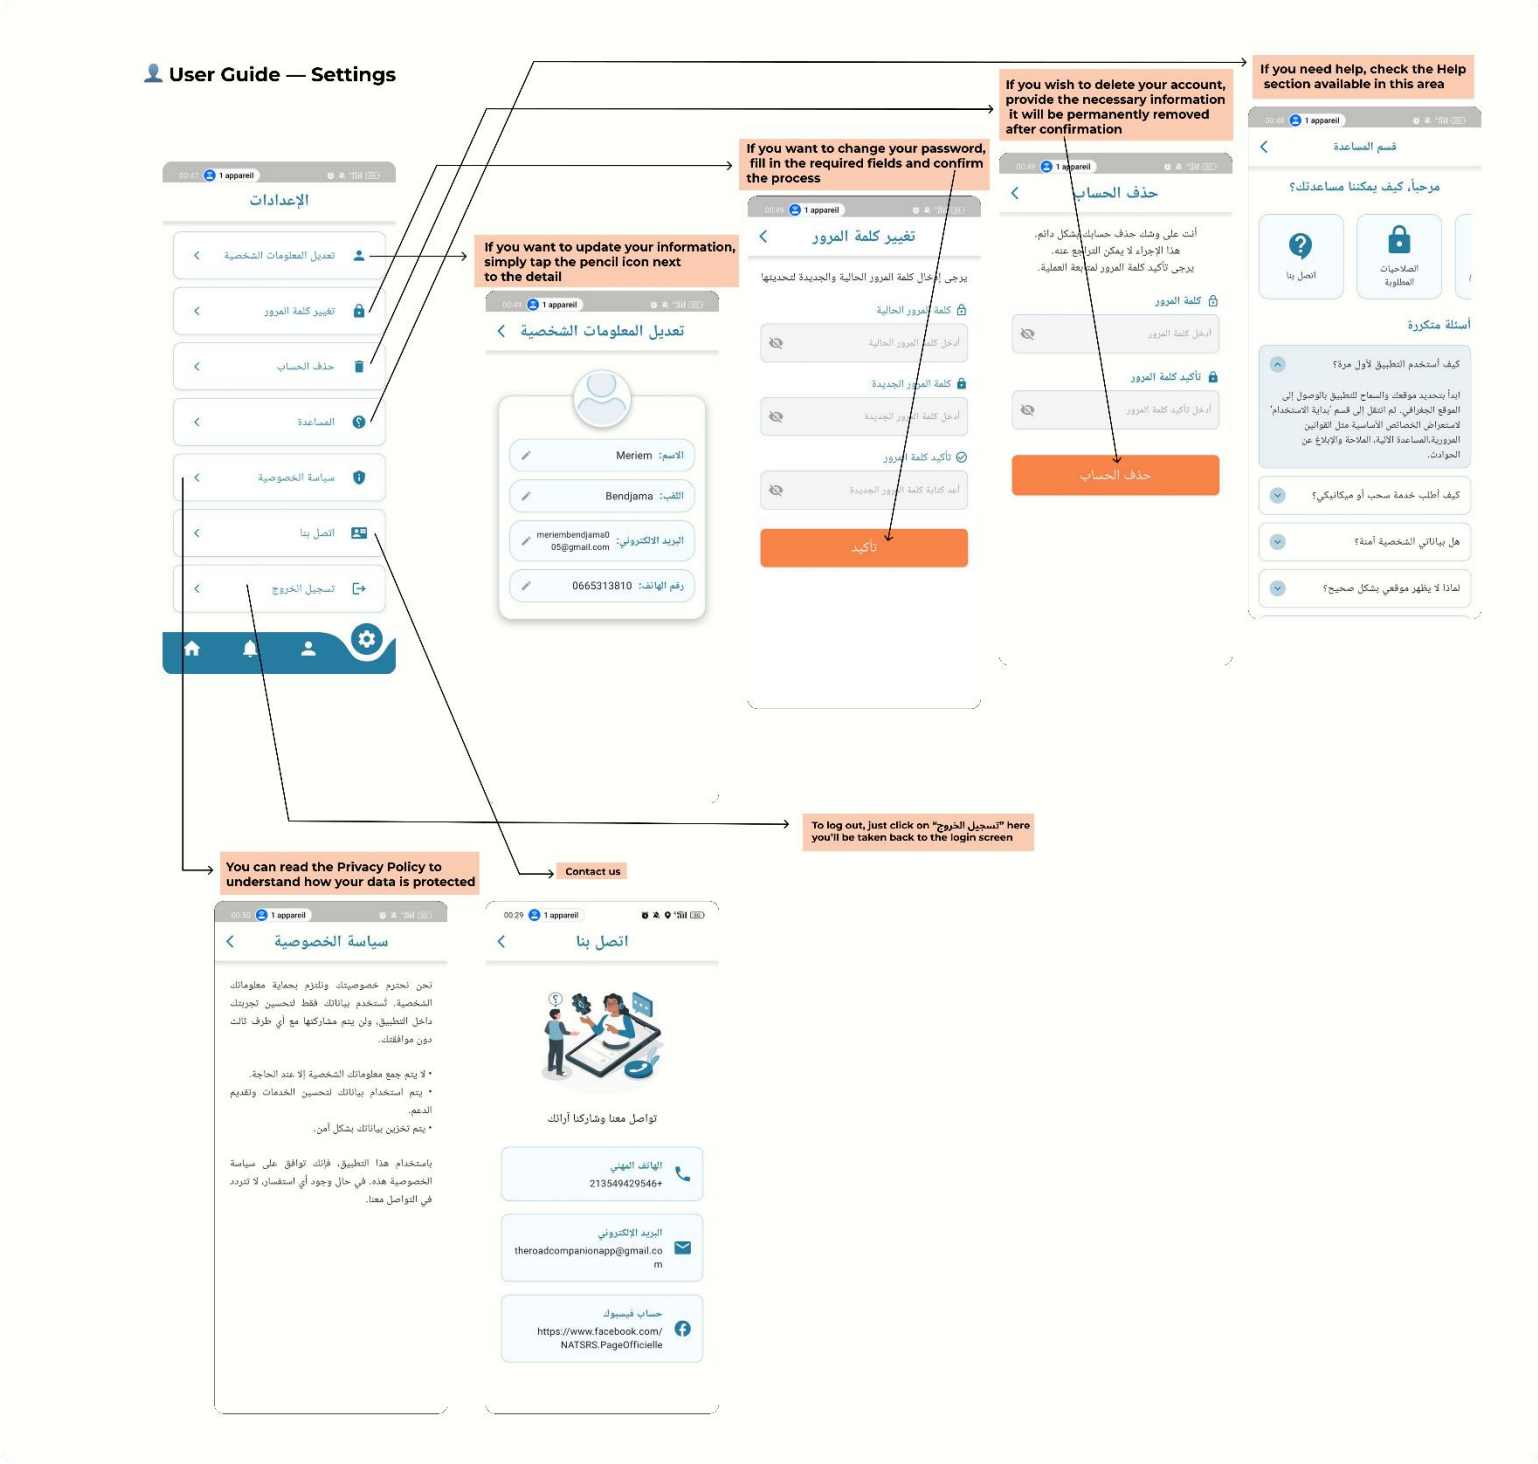
4. Traffic Test Simulation

Challenge yourself with realistic simulations! Focus, answer carefully, and track your progress.



5. Settings

Easily manage your personal data, change your password, request help, or delete your account — all from one simple screen.

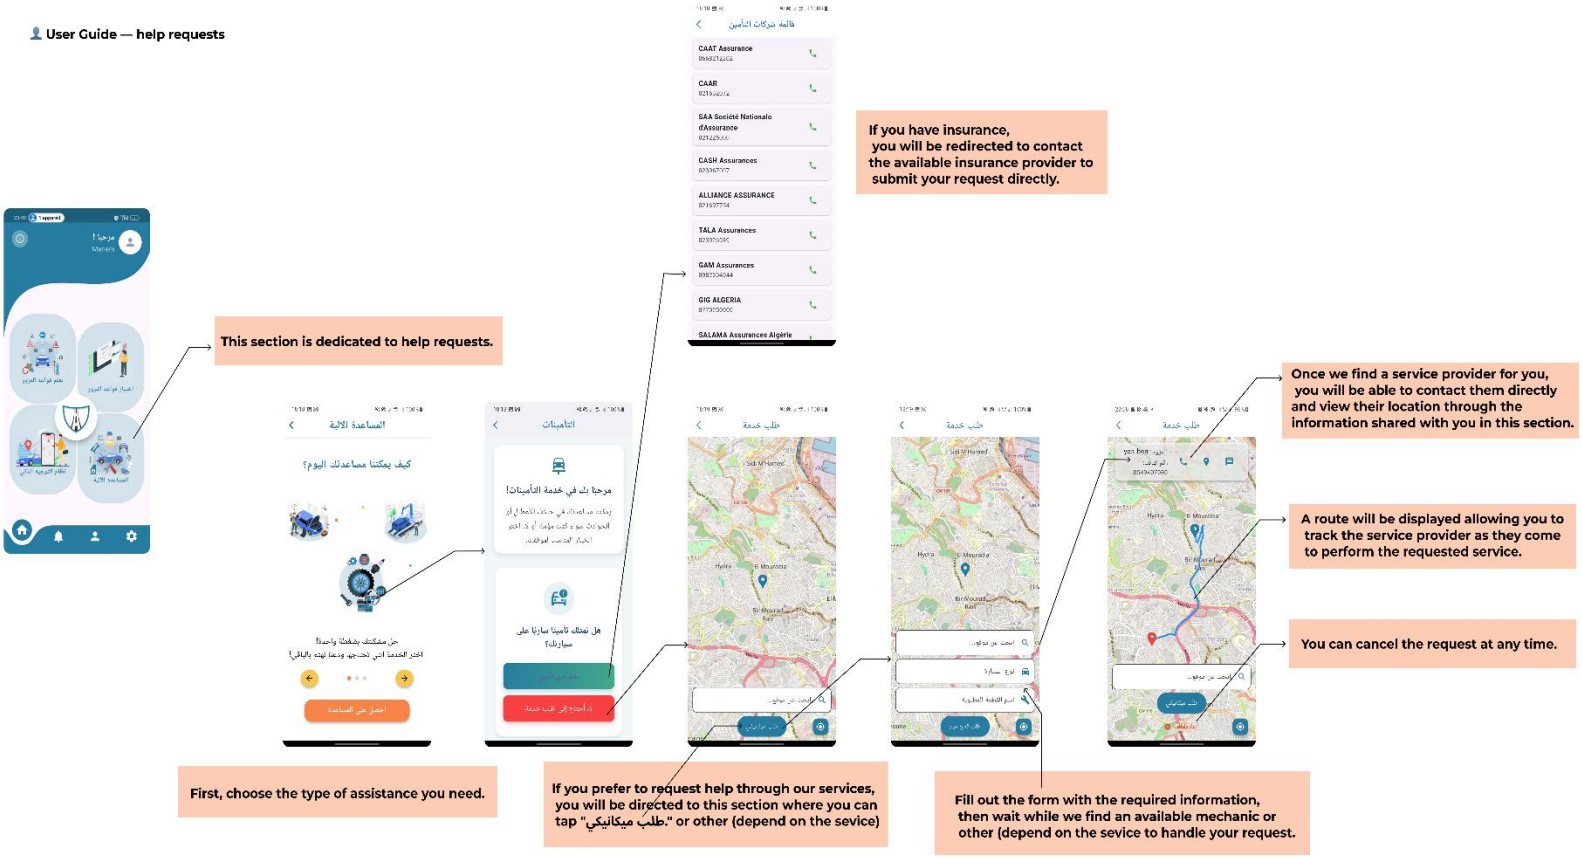


6. GPS Navigation and Alerts

Stay safe on the road with real-time GPS navigation, smart route planning, and instant alerts about road hazards or blocked paths.

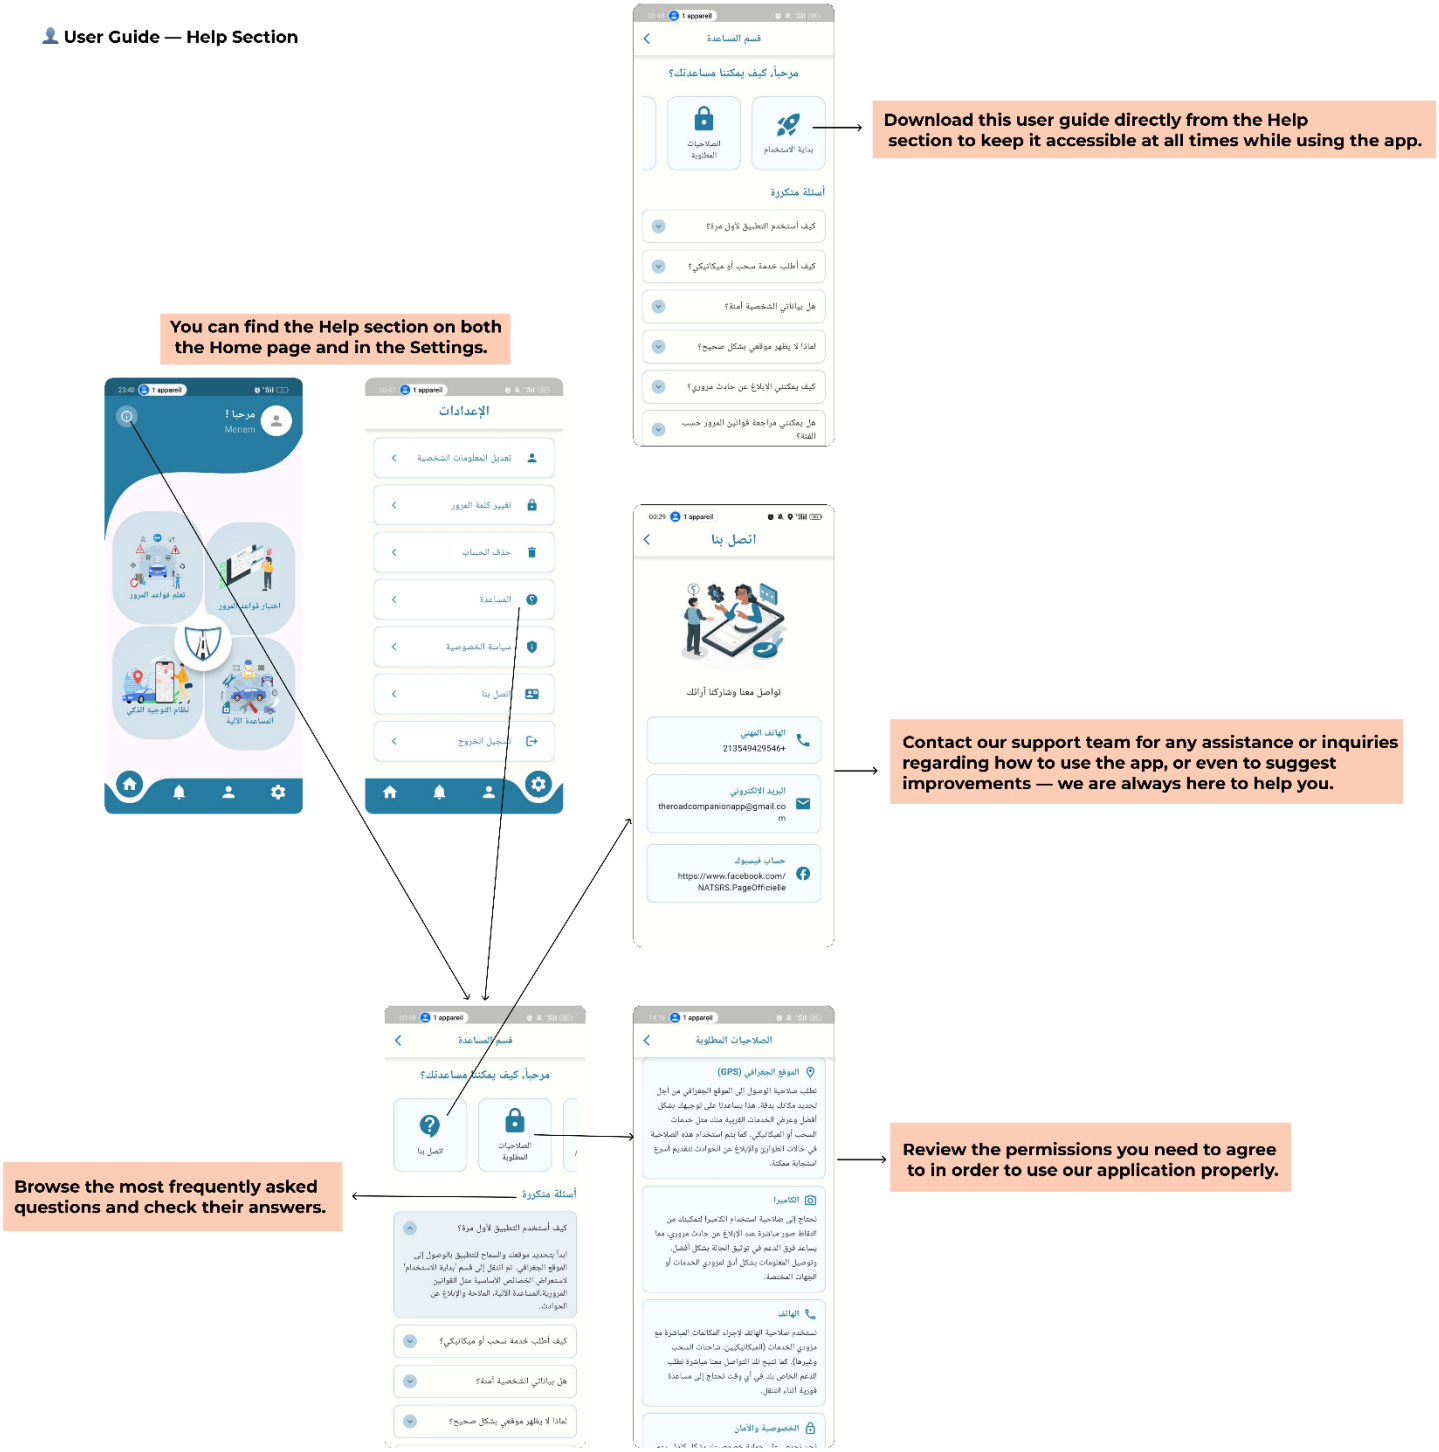
7. Roadside Services

Request mechanic assistance, towing, or spare parts directly through the app and track the service in real-time on the map.



8. Help Section

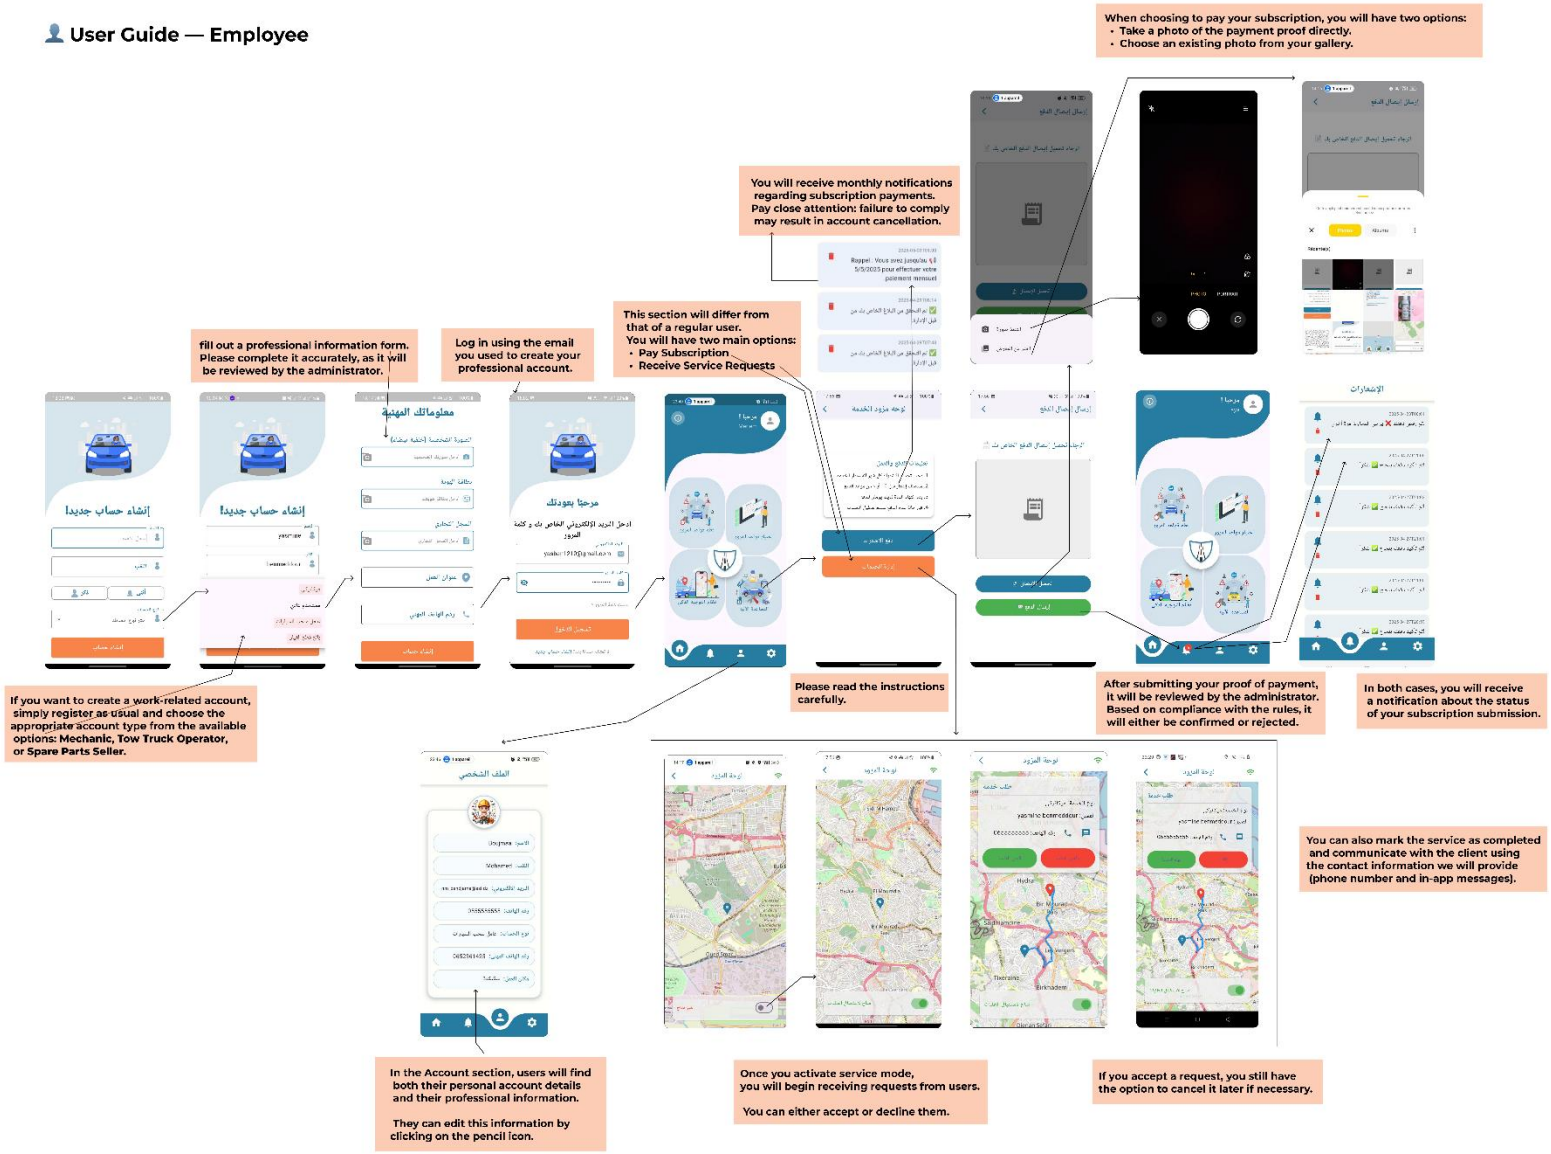
Need guidance or support? Browse the help section for useful answers and instructions related to your account and services.



Part 2: For Employees (Mechanic, Towing, etc.)

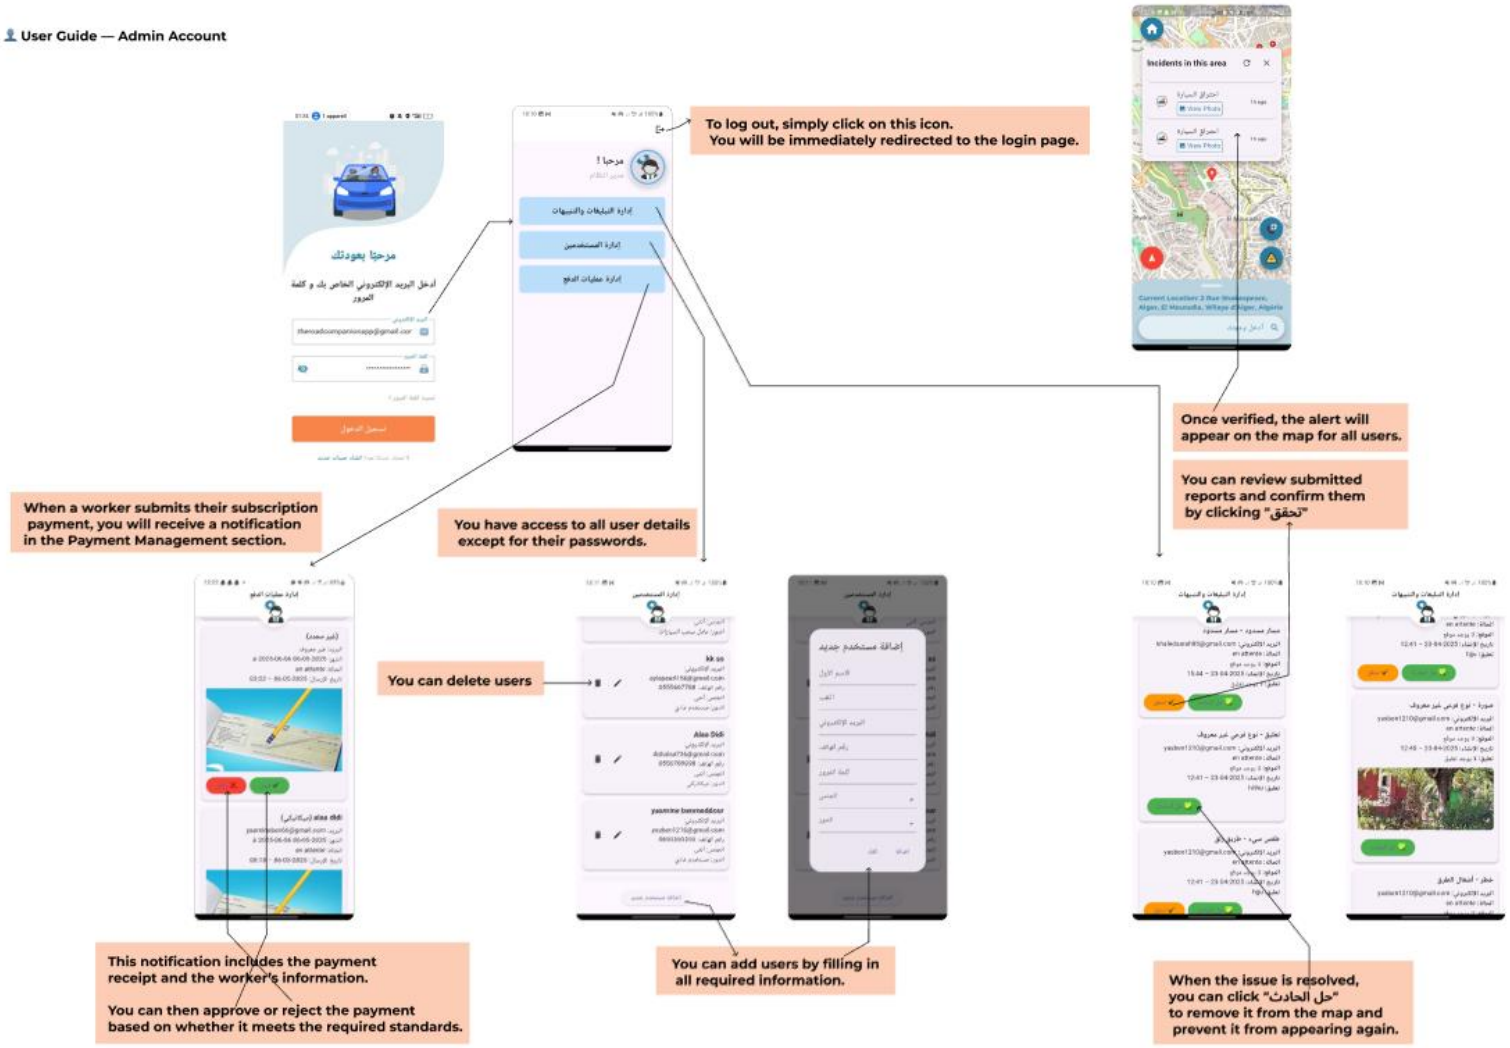
9. Employee Dashboard

Service providers such as mechanics or tow truck drivers receive and manage help requests efficiently via their dedicated dashboard.
They can view real-time tracking, update statuses, and interact with clients to ensure timely service delivery.



Part 3: For Admins

10. Admin Dashboard



Conclusion

The **Rafiq Al-Tariq** mobile application offers a complete and user-friendly solution for promoting road safety and providing assistance to users in real time.
Through its various features—ranging from educational content and test simulations to GPS alerts and service requests—the app ensures a smooth and secure driving experience for everyone.

This user guide simplifies each feature and helps all types of users take full advantage of the app's capabilities.
Whether you are a learner, a driver, a service provider, or an administrator, **Rafiq Al-Tariq** is designed to serve your needs with clarity, reliability, and ease of use.
